On November 2nd at Brae Burn Country Club in Purchase, New York, Pediatric Cancer Foundation really rocked the cure! Approximately 240 attendees raised almost $250,000 to support research, the purchase of state-of-the-art equipment/instruments and improve patient/parent care at the hospitals PCF supports.

This year’s event was in memory of Paul Ulysses Jimenez, a 10 year-old Westchester boy who passed away in January, 2016 from Rhabdomyosarcoma, a rare form of cancer of the skeletal muscles.

“Our amazing little boy taught us so much about life, about love and about strength,” said Paul Jimenez Sr. in his keynote address. “This week will mark 10 months since we have been able to kiss Paul and tell him how much we love him. I implore each and every one of you to please spread awareness for pediatric cancer research. We need to find a cure and our dream is to one day see that cure happen.”

Westchester County Executive, Rob Astorino, attended the event and remarked that we were there to help families down the line to never have to experience the loss that the Jimenez and other families have suffered.

Funds raised at our Rock the Cure event, and at all events throughout the year support the following hospitals:

- NewYork-Presbyterian Morgan Stanley Children’s Hospital
- Memorial Sloan-Kettering Cancer Center
- Feinstein Institute of Medical Research – Northwell Health
- The Stephen D. Hassenfeld Children’s Center for Cancer and Blood Disorders at NYU Langone Medical Center
- Maria Fareri Children’s Hospital at Westchester Medical Center
- University of Chicago Medicine Comer Children’s Hospital

**The New BIG DEAL:**

The times are changin’ and so are we! Check out our new website, logo, and tagline! Like us on Facebook and Follow us on Twitter!

Pediatric Cancer Foundation’s mission is to develop a cure for childhood cancers. For more than 45 years the 501(c) (3) nonprofit has raised money for game changing research, patient treatment and endowing world renound doctors at the hospitals PCF supports.

**PLEASE CONSIDER A DONATION TODAY**

The Statistics

- Cancer is the **leading cause** of non-accidental deaths in children.
- About **10,380 children** in the United States under the age of 15 will be diagnosed with cancer in 2016.
- All types of childhood cancers combined receive **only 4%** of the U.S. federal funding for cancer research.
